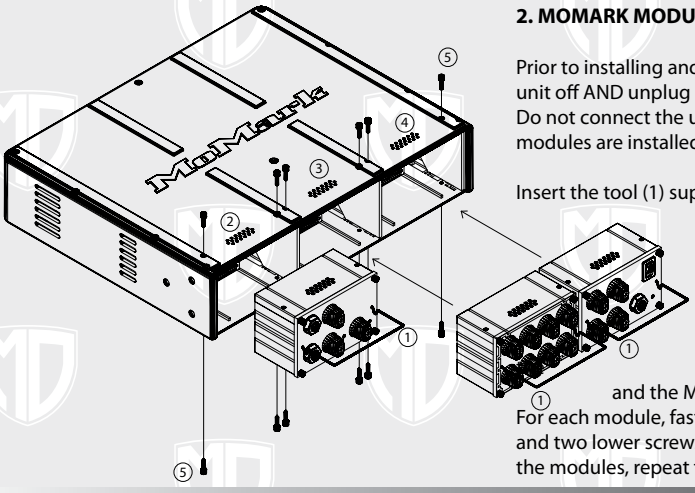
"The Lightning Flash with arrowhead symbol within an equilateral triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product enclosure that may be of sufficient magnitude to constitute a risk of shock to persons."

"The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the product."



2. MOMARK MODULE ASSEMBLY INSTRUCTIONS

Prior to installing and/or removing modules, be sure to turn the unit off AND unplug it from the power source.
Do not connect the unit to a power source unless all three modules are installed in the amp frame.

Insert the tool (1) supplied with the modules into the two holes on the front panel of the module.

Slide each module right-side-up into the amp frame. Be careful to insert each module into its proper slot!
The PRE module goes in the left slot (2); the EQ module goes in the center slot (3); and the MASTER module in the right slot (4).
For each module, fasten the two corresponding upper screws and two lower screws (5). To disassemble a MoMark and remove the modules, repeat the operations above in inverse order.
